Under Section 21 (2) of the Railways Act, 1921, and paragraph 4 of the Ninth Schedule to the London Passenger Transport Act, 1933, it is directed that the remuneration and any other expenses of the Rates Tribunal shall be defrayed by the Minister, but, so far as the aforesaid expenses are not met out of the amount recovered by way of fees, they shall, on demand, be repaid to the Minister by the Amalgamated Railway Companies and the London Passenger Transport Board as part of their working expenses in such proportions as the Rates Tribunal may determine.

Repayments by Railway Companies and the London Passenger Transport Board will be credited to Appropriations in Aid (*see* Subhead Z (1), (2) and (3)).

(a) Further provision, amounting to 831£., is made in connexion with the Tribunal under Subhead A.

## APPENDIX.

The following table gives further details of the estimated expenditure of the various organisations included in Subheads B to D.4 and E. The figures shown are those allotted in the first instance to the respective organisations but the rate of expenditure on the work of particular organisations may be varied at the discretion of the Department on the recommendation of the Advisory Council provided that expenditure in excess of the total provision in any debit subhead will not be met from savings on other subheads without Treasury sanction.

## NOTES ON GRANTS.

*Subhead F.*—The grants in aid under (a) and (b) are provided in terms of the Small Landholders (Scotland) Act, 1911 (1 & 2 Geo. 5, c. 49, s. 5), and the Sixth Schedule to the Local Government (Scotland) Act, 1929 (19 and 20 Geo. 5, c. 25, s. 52 (3) ) and are payable to the Agriculture (Scotland) Fund established by Section 5 of the first-named Act. The accounts of the Fund are audited by the Comptroller and Auditor General. Any balance on the Fund Account which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

*Subheads G., J.3 and J.4.*—The grant under G.(a) to the Scottish Milk Records Association and the grants under J.3 (c) and J.4 (b) and (c) to Colleges and other institutions are paid on the basis of approved expenditure within certain maxima. Payments on account will be made from time to time, any adjustments found to be necessary on the production of vouched or audited accounts for the grant period being made in the succeeding year.

*Subheads J.2 and J.5.*—These grants in aid are fixed annually. Expenditure out of them will not be accounted for in detail to the Comptroller and Auditor General, and any balance of the sums issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

*Subhead K.2.*—This grant in aid is payable to the Agricultural Marketing (Scotland) Fund under Section 11 of the Agricultural Marketing Act, 1931 (21 & 22 Geo. 5, c. 42), for the purposes, and under the conditions, stated in that section. Any balance of the sums issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

*Subhead L.1.*—The grant to the Scottish Agricultural Organisation Society is based on an estimate of the Society's requirements during the period ending 31 December 1946 after taking into account income from other sources. Advances will be made from time to time and the final instalment will be paid after the submission of audited accounts for the calendar year.

*Subhead L.3.*—The grant to the Scottish Agricultural Securities Corporation is payable under Sections 2 (2) and 8 of the Agriculture (Miscellaneous Provisions) Act, 1944, in order to enable the Corporation to issue loans at a rate of interest ( $3\frac{1}{2}$  per cent.) lower than that hitherto charged ( $4\frac{1}{4}$  per cent.). The amount of grant required will be determined on submission of an audited statement and claim.

\* Expenditure out of these grants in aid will not be accounted for in detail to the Comptroller and Auditor General, but the accounts of the Herring Marketing Fund will, under Section 4 (6) of the Herring Industry Act, 1944, be audited by him. Any balances of the sums issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

† Any expenditure out of this sum which is attributable to Northern Ireland will be recoverable by deduction from the Northern Ireland share of reserved taxes.

‡ The Herring Industry Act, 1944, prescribes certain maximum limits for expenditure on these services over a period of five years. To the extent that expenditure in an earlier year has fallen short of the sums provided in the Estimate for that year part of the provision in the current Estimate may represent a re-vote of earlier provision.

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimates have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings:—

(with graduated adjustment at the various change and terminal points).

New scales and ranges of salary on a consolidated basis are in course of promulgation.

*Service Awards.*—Arrangements for the remuneration of certain temporary staff locally recruited overseas, allow for awards on completion of service, varying in amount with the period served.

(a) Slightly lower rates are payable where the officer is not fully qualified.

(b) In addition, allowances of 5s. and 3s. a week are payable to some members of these grades who have attained prescribed standards of proficiency in typing and shorthand respectively.

(c) Women cleaners conditioned to a 30-hour week subject to a liability to attend for 42 hours without extra payment receive a Consolidation Addition of 18s. per week.

Osborne, which, during the war, was used principally as an Emergency Medical Service Hospital, has reverted to a Convalescent Home for Officers of the Navy, Army and Air Force and members of the Government Service with accommodation for 50 patients. Provision is also included under this Vote for the maintenance and custody of the State Apartments and the Swiss Cottage Museum and Grounds, all of which are open to the public.

For the purpose of this Estimate the average number of patients is taken at 40.

The approximate apportionment of the amount required between the Convalescent Home, State Apartments, &c., and Grounds respectively is :—Convalescent Home, 25,085*l.*; State Apartments, &c., 1,190*l.*; and Grounds, 6,490*l.*

One-half of certain expenditure in respect of buildings in Persia, Saudi Arabia and Siam for which provision is made in this Estimate is recoverable from the Government of India and taken into account in the general adjustment in respect of Diplomatic and Consular Services in Persia, &c. (*see* Subhead J of the Vote for Diplomatic and Consular Establishments, &c., Class II., 2).

Charges in respect of rent and maintenance of Diplomatic Buildings are borne on this Vote. Similar charges in respect of Consular Buildings are borne either on this Vote or on that for Diplomatic and Consular Establishments, &c. (Class II., 2), according to the nature of the tenure, i.e., in the case of Crown and long leasehold properties the charges fall on Subheads B and D of this Vote, otherwise on the Vote for Diplomatic and Consular Establishments, &c., which also bears the cost of all office and rent allowances to Consular Officers.

The Furniture Subhead covers the provision of office furniture to all Diplomatic and Consular Buildings and of residential furniture to all Heads of Missions. Residential furniture is also supplied on a rental basis to Consular Officers in certain posts, and to Diplomatic Officers who occupy Government-owned houses. The rentals received are appropriated in aid of this Vote, as are also the sums received from Consular Officers in respect of internal maintenance carried out by the Ministry of Works to residences in their occupation.

\* The grant in aid of the London Fire Brigade will be paid to the London County Council and will not be accounted for in detail to the Comptroller and Auditor General. Any balance of the sum issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

† It is anticipated that 19,000l. will be recovered from the Northern Ireland share of reserved taxes in respect of reserved services in Northern Ireland.

‡ Further expenditure in 1945 was met from the Vote of Credit.

\*The token sum provided under Subhead L represents the estimated expenditure on upkeep of machinery, consumable stores and wages at the Stationery Office Printing Works less the amounts transferred to be accounted for under Subhead F (Printing) and Subhead G (Binding).

† Of this sum 16,000*l.*, in respect of reserved services, is recoverable from the Government of Northern Ireland by deduction from that Government's share of reserved taxes. (This deduction is additional to the sum of 6,250*l.* received direct from the Government of Northern Ireland for supplies and appropriated in aid of this Vote. See Subhead Z (h) and (j))

‡ Further expenditure in connection with this service in 1945 was met from the Vote of Credit.

\* Certain expenditure in connection with these services in 1945 was accounted for under the Vote for Ministry of Works (War Services) (Class X, 16) and charged to the Vote of Credit.

† Expenditure on these services is recoverable by deduction from the Northern Ireland share of reserved taxes, except (1) such amounts, estimated at 1,220l., as may be allowed by the Joint Exchequer Board under paragraph 4 (3) (b) of the First Schedule to the Irish Free State (Consequential Provisions) Act, 1922 (13 Geo. 5, c. 2).

(2) such portion of the expenditure, estimated at 500l. and 130l., relating to agency services performed by the Post Office and the Board of Customs and Excise respectively on behalf of the Government of Northern Ireland as is recovered direct from that Government, and credited to Subhead Z (Appropriations in Aid) of this Vote.

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimates have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings:—

The above scales apply in London. Lower rates are paid elsewhere.

*Consolidation of War Bonus.*—The basic scales and rates of pay shown in the Estimates are, in the case of whole-time non-industrial Civil Servants with salaries up to 1,500% a year, for the time being, subject to certain additions in respect of consolidation of war bonus, which was previously paid as a separate emolument. The amount of the Consolidation Addition is shown in the following table :—

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimate have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings :—

New scales and ranges of salary on a consolidated basis are in course of promulgation.

*Service Awards.*—Arrangements for the remuneration of certain temporary staff, locally recruited overseas, allow for awards on completion of service, varying in amount with the period served.

(a) Slightly lower rates are payable where the officer is not fully qualified.

(b) In addition, allowances of 5s. and 3s. a week are payable to some members of these grades who have attained prescribed standards of proficiency in typing and shorthand respectively.

(c) Women cleaners conditioned to a 30-hour week subject to a liability to attend for 42 hours without extra payment receive a Consolidation Addition of 18s. per week.

The above figures represent mainly the difference between the selling price of commodities and their cost to the Ministry, including expenditure on distribution and other incidental expenses, the deficiency being incurred in order to implement the Cost of Living Stabilisation Policy. They also reflect changes in the level of stocks.

The figure described as "Milk, including Milk Welfare Schemes" includes the cost of reimbursing distributors for the sale of milk at less than the normal retail price in the case of the National Milk and Milk-in-Schools Schemes; the estimated sums involved in 1946 are 15,300,000*l.* and 5,500,000*l.* respectively.

Part of the cost of home-produced food is represented by payments to farmers from the Votes of the Agricultural Departments (*see* Class VI, 9 and 22), and by a subsidy in the price of fertilisers involving a charge on the Board of Trade Vote (*see* Class VI, 1).

Refunds to traders of Customs Duty in respect of which no drawback facilities exist are charged to this subhead.

*Note.*—Expenditure on salaries, &c., and travelling and miscellaneous expenses of the departmental staff engaged on duties in connection with this service is provided for under the Vote for the Ministry of Pensions (Class VIII, 2).

### III. Details of the foregoing.

The provision made for monetary assistance in respect of dependants and certain other financial obligations of persons called up for training or service under the Military Training Act, 1939, and the Reserve and Auxiliary Forces Act, 1939, was set out in Command Paper presented to Parliament in June 1939 (Cmd. 6043).

A Military Service (Special Allowances) Advisory Committee was set up when the militia scheme was introduced; but consequent on the extension of the scheme to men serving in the Forces during the war of 1939–45, the Committee became an Advisory Committee to the Minister of Pensions, to whom the responsibility for administration was transferred as from 1 December 1939 (*see* Cmd. 6138).

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimates have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings :—
